WORK EXPERIENCE

Web developer
Freelance, jun 2020 - dec 2022

Created websites with React.js and Redux to frontend and Node.js to backend. Implemented digital solutions tailored to meet business needs. Utilized MongoDB, Express and MUI to enchance user experience and site efficiency.

Front end developer
Company CryptoFeline, jan 2023 - sep 2023

Developed a webpage for the presentation of an NFT token using React.js and Boostrap with SaaS for development. Implemented interactive functionalities and optimized performance.
